

**The European Union has not prevented the return of nationalism and protectionism!**

In the European Parliament the political forces and the number of representatives openly anti-european has increased rather than decreased.

**The European Union has not ensured peace!**

It just kept out the war from its borders. One above all, the war in ex Jugoslavia.

**The European Union is not a good bargain!**

According to a research conduct by the European Parliament, the renounce to being federalist costs us 1.597 billion euros.

**The European Union is illiberal and undemocratic, unable to guarantee to the European citizens their fundamental rights and powers of decision-making and control, because the European Union is a mere intergovernmental agreement and is therefore destined to fail.**

The European Union does not work! It can't work!

The only federal model that has been shown to work for over 240 years is that of the United States of America.

The **Council of Regions for the United States of Europe** proposes to reshape the Europe on the United States of America's model and, hence, proposes the convocation of a **costituent assembly**.

The **Council of Regions** is committed to:

**-the immediate abolition of the European Stability Mechanism;**

**-a different and effective development aid policy and effective application of "democratic clauses";**

-the **immediate abolition** of **protectionist measures**;

to have:

-**defence** and a **federal army**;

-**federal diplomacy**;

-federal **tributes**;

-a **democratic management policy of federal public debt**;

-a **federal jurisdiction**.
